Environmental Policy

FRACHT Australia is committed to take all reasonable steps to protect the environment and to minimize the impact its activities will have on the environment.

We will set measurable Environmental objectives and targets, and we will continue to improve our Environmental system with a view to reduce and prevent pollution and continually improve our system.

We operate an Environmental Management System that is fully compliant with the requirements of AS/NZS ISO 14001:2015 standard.

Fracht Australia is aware of all relevant Environmental legislations and regulations in all States it operates. We are committed to provide adequate resources to ensure these legislations, regulations and other relevant requirements are met.

Our Environmental system is documented, relevant procedures and instructions are implemented, adequate resources are provided to maintain the system, and all employees are informed and made aware of duties and responsibilities in relation to keeping a pollution-free work environment.

Our policies, commitments and system to support them are available to all interested parties, and the public.

All the elements of our Integrated Management System comprising of Quality, Environmental and Health and Safety, are periodically reviewed to ensure they remain current, effective, efficient and suitable to changing needs.

The Environmental management system covers all the activities, products and services of our organization as an International Freight Forwarder, including; Import/Export Air and Sea, Customs, Warehousing, Distribution, Logistics, Trade Fairs, Exhibitions and Large Turnkey Projects.

This Policy will be communicated to all staff, contractors and suppliers, and will be available for the public

Peter M Pluess
Managing Director
